## Compliance Procedure

## Step 1: Pre-Listing Review

Before publishing any listing:

1. **Scan title** for prohibited keywords
2. **Review bullet points** one by one
3. **Check description** for claims
4. **Verify backend search terms** don't include banned keywords
5. **Review A+ Content** for prohibited elements

## Step 2: Use Search Function

In your word processor:

1. Press Ctrl+F (Windows) or Cmd+F (Mac)
2. Search for each category of banned keywords
3. Replace or remove any matches

## Step 3: Document Changes

- Keep a log of removed/replaced keywords
  - Note why changes were made
  - Update listing notes in DataDive
- 

## Safe Keyword Alternatives

Instead of...	Use...
"Cure"	"Supports", "Promotes"
"Guaranteed"	"Designed for reliability"
"Best"	"Premium", "Professional-grade"
"Organic"	"Natural ingredients" (if unverified)
"Antibacterial"	"Easy to clean"
"Non-toxic"	"Safe materials"
"Eco-friendly"	"Thoughtfully designed"
"Weight loss"	"Supports active lifestyle"

---

## Regular Audit Checklist

### Weekly Review:

- ☐ Check any suppressed listings for keyword issues
- ☐ Review new Amazon policy updates
- ☐ Update this reference if new restrictions found

### Monthly Review:

- ☐ Audit all active listings for compliance

- ☐ Check competitor listings for new restriction patterns
- ☐ Review any account health notifications

---

## Common Mistakes

Mistake	Consequence	Prevention
Using "organic" without certification	Listing suppression	Only use if USDA certified
Health claims in supplements	Account warning	Use structure-function claims only
Competitor names in keywords	Trademark violation	Never reference competitors
"Best" or "guaranteed" in title	Listing flagged	Use descriptive alternatives
