Project Overview

This folder contains all analysis, optimization materials, and implementation files for the Saluspa Hot Tub Filter multi-pack expansion strategy.

Key Opportunity: Add 4-pack, 8-pack, and 12-pack variations to increase revenue by 128% and profit by 211%.

📖 This Analysis as Official Learning Example

This Saluspa Hot Tub Filter analysis serves as the reference example for **Mode 2 (Listing Optimization)** of the **amazon-product-competitive-analyzer** skill.

What This Demonstrates

Mode 2 Workflow Capabilities: - ✅ How to handle **existing product optimization** (not just new products) - ✅ **Competitive per-filter pricing analysis** (discovered value perception problem) - ✅ **Multi-pack variation strategy** (2, 4, 8, 12-pack architecture) - ✅ **Complete listing optimization workflow** (title, bullets, backend keywords) - ✅ **90-day implementation roadmap** (week-by-week action plan) - ✅ **Profitability projections** (3 scenarios: conservative, base, optimistic)

Real-World Results: - **Problem identified:** CA\$8.99/filter (worst in market) vs. CA\$3.56-5.67/filter (competitors) - **Solution designed:** Multi-pack value ladder to fix perception - **Impact projected:** +128% revenue, +211% profit with same traffic - **Time investment:** ~2 hours for complete analysis

Quick Links

Key Findings

- **Current State:** CA\$4,207/month revenue, CA\$750 profit
- **Projected State (90 days):** CA\$9,604/month revenue, CA\$2,332 profit
- **Investment Required:** CA\$2,108 (inventory + Vine + images)
- **ROI:** 156% after 90 days

Critical Insight

Your 2-pack at CA\$8.99/filter has the WORST per-filter value in the market vs. competitors selling 6-16 packs at CA\$3.56-5.67/filter. Multi-pack expansion solves this perception problem while improving margins.

Recommended Pricing

- 2-pack: CA\$17.98 (keep current - entry tier)
 - 4-pack: CA\$29.99 (CA\$7.50/filter - MOST POPULAR)
 - 8-pack: CA\$49.99 (CA\$6.25/filter - BEST VALUE)
 - 12-pack: CA\$67.99 (CA\$5.67/filter - ANNUAL SUPPLY)
-

Next Actions

This Week: 1. Update current 2-pack listing with optimized copy 2. Create 4, 8, 12-pack child ASINs 3. Design variation images with badges 4. Order initial inventory (50×4pk, 30×8pk, 20×12pk)
